The Lithuanian curator [Eglė Ambrasaitė](#) will introduce [Aikas Žado Laboratory](#)'s art center's curatorial platform, located in the [Žeimiai Manor House](#), Lithuania. Programs developed within the framework of this dynamic platform include "Residency o-yo", "Invisible Man's Cinematheque", "Lankesa", and "Center of

Biomimetic Imagination” (“CBI”). The curatorial concept behind Aikas Žado Laboratory’s programming is to transform the Žeimiai Manor House itself into the contemporary artwork. As the focus of her NYC residency at RU, Eglė will present her current research and exhibition project “Si-bioarchitecture: To Walk in Conversation with Ghosts”, based on crip materiality theory. The key words for this talk will be: crip materiality, material non-compliance, human/non-human bonding and new-worlding.

Open Studio: Recent works by José Manuel Mesías

Playing card found at Villegas and Obrapia, June 30th 2023 - Documentation of found objects from the series Itineraries

Friday November 17, 2023 | 5:00 - 8:00pm

Location: Cuban Artists Fund studio, 208 E 51st St, New York, NY

RSVP

Please join the Cuban artist **José Manuel Mesías** at an open studio event realized at the occasion of his residency in New York. Visitors will be exposed to new works as part of Mesías' ongoing series Mind species, broadly defined by the artist as a quest around the idea of art as a means of exploring the unknown. "Through a detailed observation of objects, spaces, and people close to his daily life, Mesías looks for a passage through the 'thick tissue' of the 'real world,' probing his disturbing and disquieting inner monologue".

This is an invitation for viewers to create meaning out of psychologically charged works, comprised of silent and mysterious paintings, as well as found and fabricated small textural objects by Mesías drawing inspiration from the decaying beauty and deterioration of the urban environment.
